RESPONSE TO INTERVIEW SUMMARY RECORD

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

INTRODUCTORY COMMENTS

Applicant's representative Walt Norfleet appreciates the courtesies extended by Examiner Diane Yabut during a telephone interview on March 23, 2007. As noted in the Interview Summary record mailed on March 29, 2007, amendments that relate to a cutter being moveable in the instrument and freeing a suture wire loop from a distal end of a suturing instrument were discussed. Applicant does, however, wish to clarify that in no way does the Applicant concede that the Atala reference has a passageway that is capable of bending suture wire and/or deforming suture wire as long as the suture wire material is deformable, as well as cutting the suture wire with an interior cutting edge. Neither does the Applicant concede that Atala may be modified by using the axially movable cutting bar of Mericle, integrated in the shaft of the needle in Atala. Accordingly,

the comments in the Interview Summary, as phrased by the Examiner, should not be construed as concessions made by the Applicant during the interview or at any other time.

Dated: April 20, 2007

Respectfully submitted,

By

Walt Norfleet
